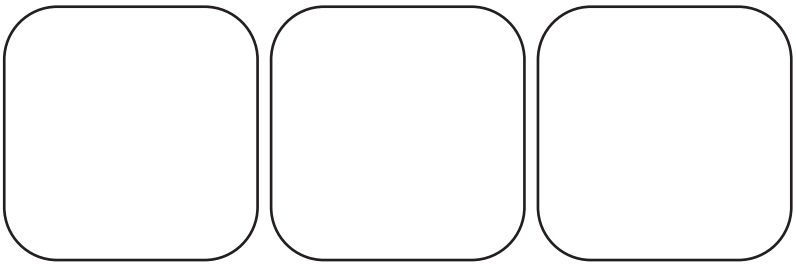
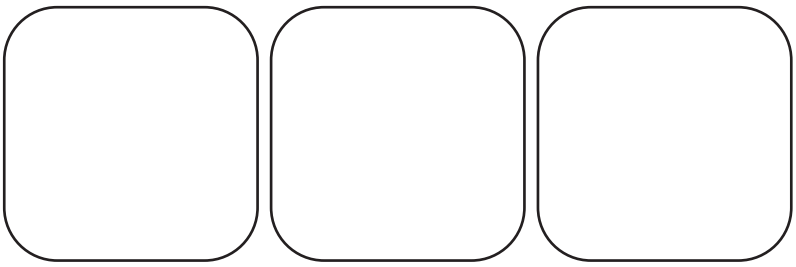
Exercise 5.6A

Use this grouping strategy to help you work out these questions. Cut and stick the oranges in the groups or use counters to work out your answer.

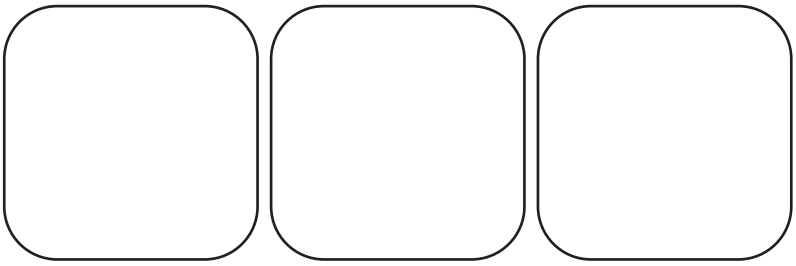
1. $\frac{1}{3}$ of 9 =



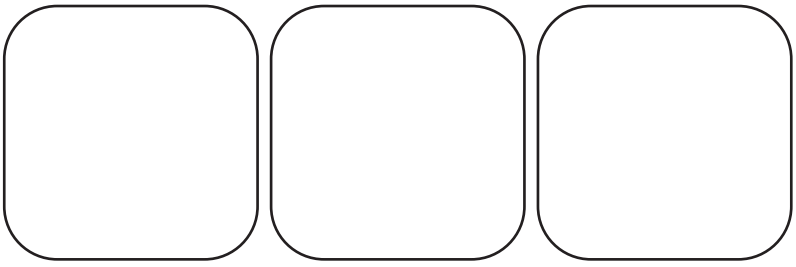
2. $\frac{1}{3}$ of 6 =

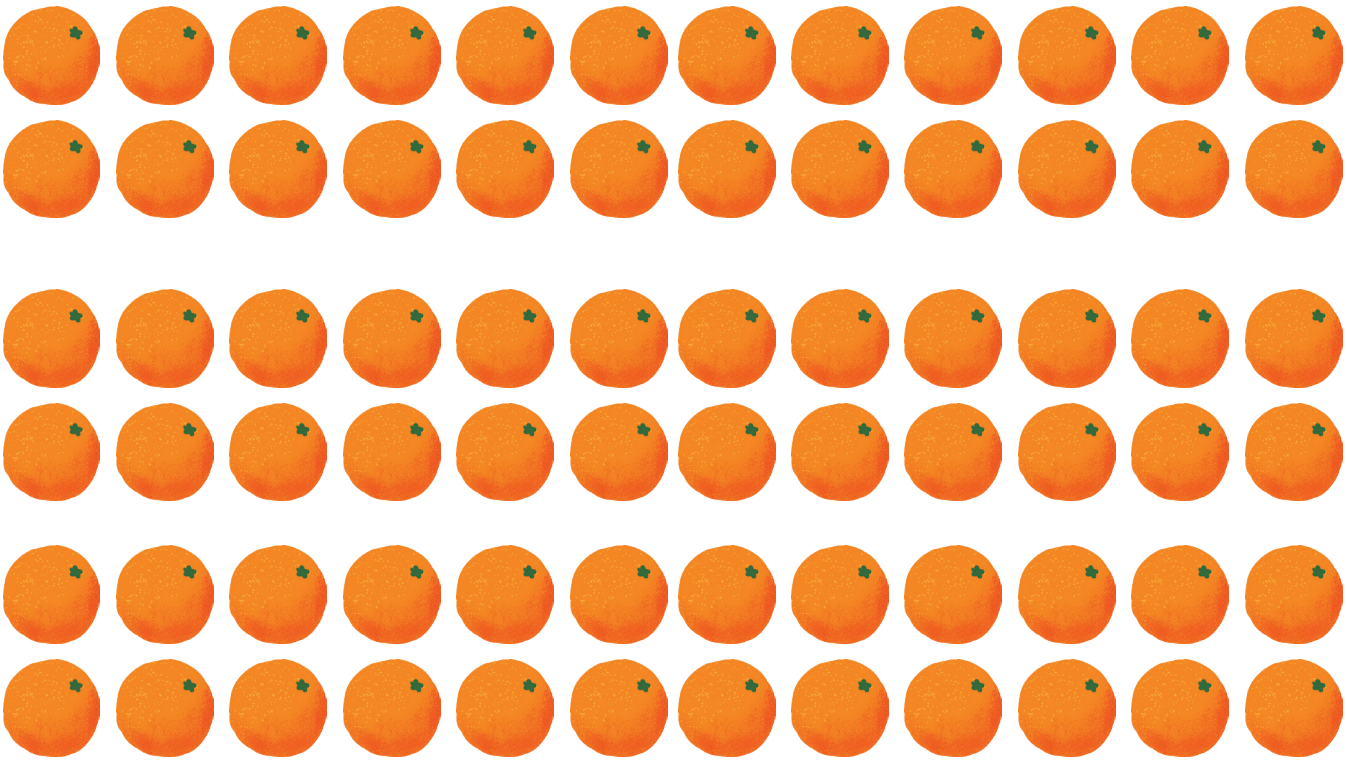


3. $\frac{1}{3}$ of 3 =



4. $\frac{1}{3}$ of 21 =

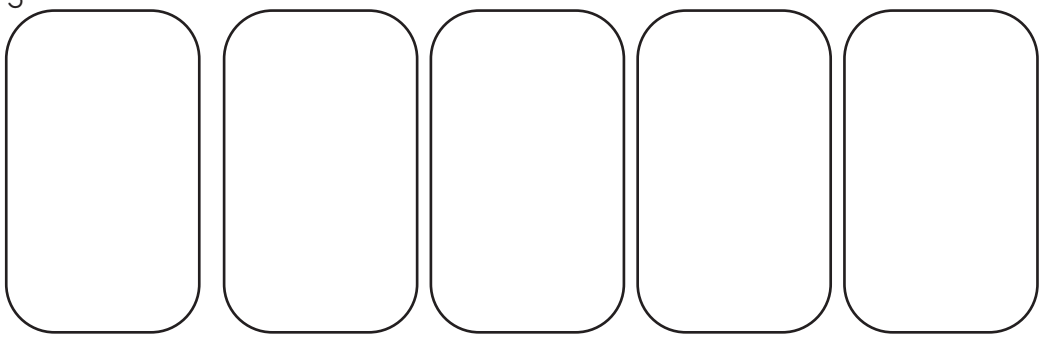




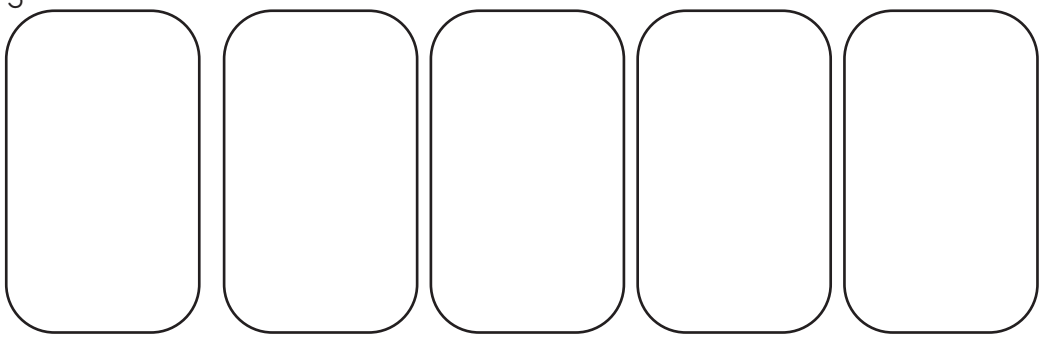
Exercise 5.6C

Use a grouping strategy to help you work out these questions. Cut and stick the apples in the groups to work out your answer:

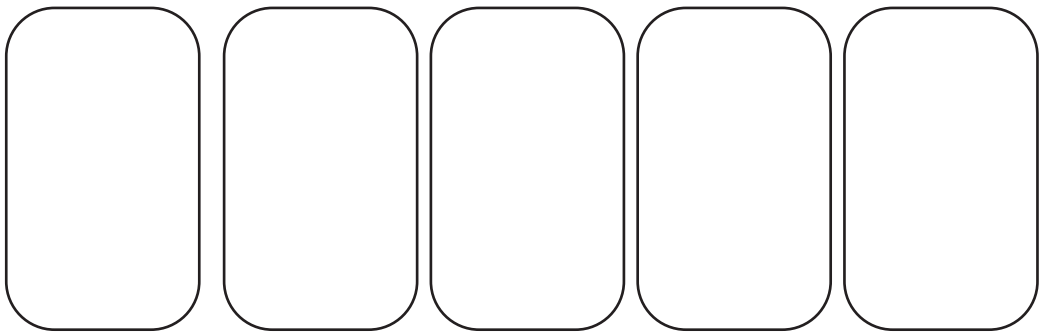
1. $\frac{1}{5}$ of 5 =



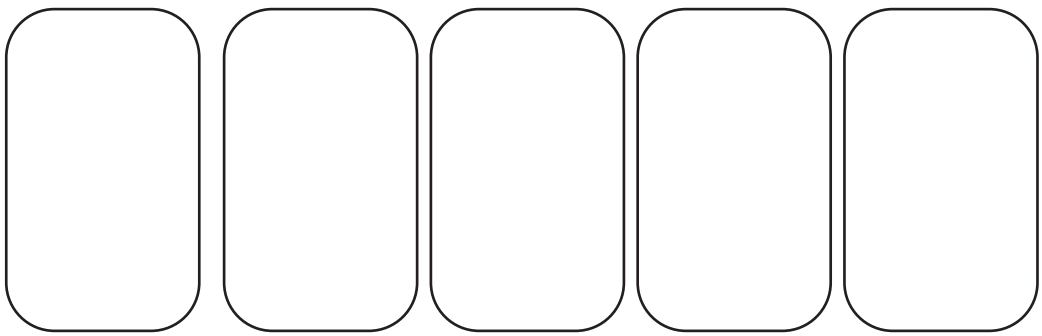
2. $\frac{1}{5}$ of 15 =



3. $\frac{1}{5}$ of 10 =



4. $\frac{1}{5}$ of 20 =



5. $\frac{1}{5}$ of 25 =

6. $\frac{1}{5}$ of 30 =
